

CHARITY CAMPAIGN

Kranti India

Born in a Brothel ...

Join us for an intimate evening with daughters of sex workers from India's red-light areas, whose lives and leadership have taken them from Mumbai's brothels to Broadway, Columbia University, the United Nations, and beyond.

This is not an NGO talk - it's conversation, storytelling, laughter, difficult questions, and the kind of wisdom that rarely emerges from boardrooms or conferences.

Come hear from Kranti's community, alongside special guest MR Rangaswami, and leave questioning everything you thought you knew about success, resilience, courage, purpose, and what human potential really looks like.
